ddivyaninayka@gmail.com

Summary:

I am a dedicated and enthusiastic 2nd-year IMCA student with a strong foundation in computer applications, programming, and problem-solving. I am passionate about learning new technologies and applying them to real-world scenarios. With a growing interest in areas such as software development, database management, and web technologies, I am eager to contribute and grow in dynamic and challenging environments. I possess good communication skills, a collaborative mindset, and a strong desire to continuously improve both technically and personally.

Skills:

HTML

CSS

C language

DBMS

C++

PHP

Basic Python

Education:

Mahatma Gandhi Higher Secondary School G-ward, Kuber nagar, Ahmedabad
GSEB Commerce

Sankalchand Patel University Visnagar, Gujarat
IMCA Computer Science

Projects:

Project Title: AI-Based Sign Language Translator

Description:

The AI-Based Sign Language Translator is an innovative application designed to bridge the communication gap between the hearing and speech-impaired community and the general population. The system uses computer vision and

deep learning algorithms to recognize hand gestures corresponding to sign language and translates them into text or speech in real-time.
